RS2 Introductory Lecture – Part II

Topic: Medical Radiation Physics and Diagnostics

March 03, 2015
10 – 12 am
Building 35.33: Lecture room 231

Principles of Dose Assessment (W. Rühm)

Medical Dosimetry and Computerized Anthropomorphical Phantoms (N. Petoussi-Henß)

Medical Dosimetry and Biokinetics (U. Oeh)

Basics of Radiological Imaging (H. Schlattl)

Participation in all five parts of the Introductory Lecture is mandatory for RS2 graduate students during the course of the doctoral studies! We recommend attending within the first year.
